STAFF PARTICIPATION IN COMMUNITY AFFAIRS 500.24

Professional staff are encouraged to take an active part in community activities within the Lake Country School District. These may include social, civic, political, cultural, and church activities. Such community participation should, wherever possible, also promote the school's relations with the public.

The district administrator especially is urged to identify himself/herself personally with the many facets of community life, providing opportunities for all citizens--including those who do not have children in the public schools or are non-parents to experience relationships with the schools.

The principal as the leader of his or her school is encouraged to be an active and leading member of the school community.

The teacher, or the degree to which the teacher is known and accepted as a citizen of the community, has a direct relationship with the degree of understanding and goodwill flowing from the community to the schools.

Teachers should endeavor to build within their pupils an appreciation and understanding for the community. Such instruction should emphasize the pupil's responsibility to their community.
