

Policies of the Board of Education

Section G            Support Services

BUILDINGS AND GROUNDS MANAGEMENT

700.8

To maintain the buildings, grounds, playing fields, and equipment at an acceptable standard, to repair, alter, or improve properties, and to plan and construct new facilities all commensurate with the requirements of the educational program requires the services and skill of many trained persons.

It shall be the policy of the Lake Country School Board that the school properties shall be maintained in good physical condition: safe, clean, and sanitary, and as comfortable and convenient as the facilities will permit or the use requires, and that new facilities be provided when found necessary.

A sincere effort shall be made to curtail the heat and air conditioning requirements in all schools and offices.
