

Policies of the Board of Education

Section H: Instruction

CURRICULUM ADOPTION

800.10

A dynamic instructional program requires ongoing alterations in the curricula and courses of study. The District Administrator, along with the Arrowhead Area Administration Team, is authorized to approve or disapprove changes in curricular offerings to students as recommended by the Arrowhead Area Task Force. The Library Media Selection/Curriculum Review Committee serves in an advisory capacity to review curriculum. The District Administrator shall report to the Board such basic changes in curricula.

Changes in curricula or course offerings requiring additions or reductions in staff or cause a substantial financial impact on the District, must be recommended to the Board by the District Administrator and shall be subject to the Board's approval.
