Section I Students

STUDENT SUSPENSION

900.35

In-school Suspension

In order to maintain greater control and provide more guidance for students whose disruptive behavior forces their temporary removal from the regular classroom, in-school suspension shall be conducted in the Lake Country School District in conformance with the following guidelines:

Students will be assigned to in-school suspension by school administrators or his/her designee.

The administration will inform staff members of the names of those students assigned to in-school suspension.

The administration will notify the parents that a student has been assigned to in-school suspension, giving the reason for such assignment. A conference may be held prior to the student's re-admittance to regular classes.

The in-school suspension teacher shall see that each student assigned to in-school suspension will have textbooks and class work assignments. If the student does not, the teacher shall make the necessary arrangements to have the student get this material.

Credit may be given for all assigned classwork completed during the period of suspension. This material is to be turned in the first day the student returns to regular class. The student may also make up any test or quiz given during this suspension. Evaluation of the classwork and test/quiz shall be done by the classroom teacher.

The administrator shall arrange appointments with appropriate staff for all students who are suspended the second time.

The administration will request, in writing, a conference with the parents of those students suspended for the third time.

Students will not be re-admitted to class until their assignment to the in-school suspension room has been fulfilled.

Students may not attend or participate in extracurricular activities while under in-school suspension.

Out of School Suspension

The principal suspend pupils in accordance with Wisconsin Statutes for noncompliance with rules established by the administrator and approved by the Board or rules established by the Board. Also, any pupil may be suspended for conduct while at school or while under the supervision of a staff member which endangers the property, health or safety of others and him or herself.

A pupil may be suspended for not more than 5 days under the following Statutory provisions:

- Prior to any suspension, the pupil shall be advised of the reason for the proposed suspension.
- The pupil shall be provided opportunity to present his/her version of the conduct prior to a determination of the proposed suspension.
- The pupil may be suspended if the administrator determines that the pupil is guilty of noncompliance with rules or of the conduct charged and that the suspension is reasonably justified.
- The parent or guardian of a suspended child shall be given written notice of the suspension and the reason for the suspension.
- The suspended pupil or his parent or guardian may, within 5 days following notification of the suspension, have a conference with a school administrator other than the principal who ordered the suspension. If the administrator finds that the pupil was suspended unfairly, that the suspension was inappropriate, or that the pupil suffered undue consequences or penalties as a result of the suspension, reference to the suspension on the pupil's records shall be expunged.
- A suspended pupil shall not be denied the opportunity to take any examinations missed during the suspension period.
- Students may not attend or participate in extracurricular activities while under out of school suspension.

No person may be denied admission to any public school or be denied participation in, be denied the benefits of or be discriminated against in any curricular, extra curricular, pupil services, recreational or other program or activity because of the person's sex, race, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability.
